Subject: Appreciation for Timely Delivery and Excellent Performance

Dear team Encon

We would like to express our sincere appreciation for the successful delivery and installation of the Robotic Automation System on four of our turning centres at our plant in Rohtak. The equipment was delivered on time, installed efficiently, and has already delivered excellent results.

Your team's professionalism, responsiveness, and technical support have made a strong impression on us. The machine's performance has significantly enhanced our operations, and we are very pleased with the outcome.

Thank you for your commitment and support. We look forward to continuing our collaboration and confidently recommend your services.

Best regards,

Rishikesh Kumar

Chief Manager

Mt Autocraft systems ltd.
